Lw110 & Lw115

1.3 Megapixel USB 2.0 Camera

High Dynamic Range in Low Light Conditions

Lumenera Lw110 and Lw115 megapixel cameras are designed for use in a wide variety of industrial applications requiring high resolution and modest cost. With 1280 x 1024 resolution and on-board processing these cameras deliver outstanding image quality and value.

Live Stream and Still Image Capturing

Uncompressed images in live streaming video and still image capture are provided across a USB 2.0 digital interface. No framegrabber is required. Advanced camera control is available through a complete Software Developer's Kit, with sample code available to quickly integrate camera functions into OEM applications.

Customizable Form Factors

Hardware and software based synchronization trigger is provided standard. Camera models are offered in both enclosed (Lu115) and board-level (Lu110) form. Custom form factor (sizes) models are also available.

Application

The Lumenera Camera SDK provides a full suite of features and functions that allow you to maximize the performance of your camera within your application. The SDK is compatible with all USB and GigE based cameras. Microsoft DirectX/DirectShow, Windows API and .NET API interfaces are provided allowing you the choice of application development environments from C/C++ to VB.NET or C#.NET. Full inline IntelliSense autocompletion and documentation is provided with the .NET API interface and is accompanied by a full API manual describing all the camera functions and properties.

Features

- Lower fixed pattern noise
- GPI/O for control of peripherals and synchronization of lighting (4in/4out) a standard feature
- Stable, reliable camera drivers for running multiple cameras on a PC or other USB devices
- Color, progressive scan, 1.3 megapixel image sensor
- 30 fps at full 1280 x 1024 resolution 60 fps at 640 x 480 resolution
- Auto white balance, auto exposure
- Snapshot mode for use with strobe
- RGB Bayer or monochrome video output
- Select 8 or 12-bit pixel data
- Simplified cabling video, power and full camera control over a single USB cable
- Adjustable C-mount provided
- DirectShow compatible
- Software compatible with Windows 10, Windows 8.1, Windows 7, Linux, 32 and 64bit operating systems
- Complete SDK available
- Four (4) year warranty
